PROFILE

My name is Jeremy Tanguay. I'm a Masters student in Educational Technology at Concordia University in Montreal. After earning a Bachelors in Sociology and Anthropology I was inspired to study the field of education through a sociocultural lens, applying my research, cross-cultural understanding, and analytical skills to my work in educational technology. I'm a quick study and always looking for new skills to develop, I'm skilled at creating content using Adobe Photoshop, Illustrator, InDesign, Final Cut Pro and Captivate.

ACADEMIC PROJECTS

The Lightroom Instructional Intervention

- Conducted a learning needs assessment
- Designed a learning program
- Planned a formative evaluation strategy

The Le James M-Learning Program

- Designed and developed an m-Learning course
- Developed an information architecture, concept map and storyboards for the program
- Utilized graphic design software to create an explainer video
- Used Adobe Captivate, to create to an m-learning experience

The Lightroom Performance Campaign

- Conducted a performance needs assessment
- Designed a performance improvement campaign.
- Utilized video and graphic design software to create a demo video
- Utilized graphic design software to develop detailed design

"Schemas" Educational Game

- Designed an educational game based on a learning theory
- Utilized graphic design software to develop a card game
